Shall a Radical Serve On Supreme Court Bench?

No appointment to the United States Supreme Court could have created a greater sensation or caused more talk than has President Wilson's appointment of Louis Dembitz Brandeis.

From ocean to ocean there has been a flood of editorial comment both for and against his confirmation by the Senate. In THE LITERARY DIGEST for February 12th, all shades of public opinion as shown through the newspaper press are concentrated in a most illuminating article which presents all of the objections urged against Mr. Brandeis and also evidences of the favor which his appointment finds in many quarters.

Other features of importance in this number of "The Digest" include:

THE REPRESENTATIVE OF EVERY PARTY

THE DIGEST serves impartially, as the representative of all parties. The convictions of the Presidential Administration, the views of its opponents; the contentions of the Allies and of the Teutons; the demands of neutrals, the claims of belligerents—all are presented for the judgment of the people. The man who is a partizan on any of the vital questions of the day will find his side fairly represented-and the other side also. He will get a clearer understanding on which to base his convictions. The man who is undecided will have a complete case, in all its phases, laid before him. When his decision is made, it must be intelligent and equitable. Of course, you want this kind of a news-magazine. There is only one-THE LITERARY DIGEST. Every number is important.
